RESPONSE PROPOSAL FOR CONDITIONALLY APPROVED FINAL DRAFT RCRA FACILITIES  
INVESTIGATION/REMEDIATION INVESTIGATION (RFI/RI) WORK PLAN FOR OPERABLE UNIT  
NO 11 (OU 11), WEST SPRAY FIELD - EML-0502-92

Ref G W Baughman ltr to F R Lockhart, Final, Phase I RFI/RI Work Plan for OU-11  
(West Spray Field) U S Department of Energy, Rocky Flats Plant, March 16, 1992,  
May 8, 1992

Based on a June 26, 1992 telephone conversation between the Colorado Department of Health (CDH) and EG&G Rocky Flats, Inc (EG&G) with concurrence from the Department of Energy, Rocky Flats Office (DOE/RFO), it was agreed to develop a proposed resolution summary to be submitted to CDH for approval prior to final revision of the work plan. It was agreed that this was the most expeditious and economic way to address the final review comments made by CDH and the Environmental Protection Agency (EPA). This approach will ensure that all comments are addressed to the satisfaction of both agencies prior to committing the resources necessary to revise and reprint pertinent sections of the Work Plan.

Attached is a copy of the proposed resolutions as well as a copy of the original CDH transmittal. If you have any questions, please call T P O Rourke of Remediation Programs at extension 8577.
